

Ideas from C.D.C. And community people from chigwere

Dear Mr President,

Firstly let me solemnly thank you all for funding the 2 million Kwacha to Chigwere people for building the office and re-name the project (Mzgora Project).

Secondly, I also want to thank you for writing a letter to C.D.C. to tell us about the new project at chigwere. We were just getting the information from Mara and STA but without confirming us, now its confirmed.

On monday the 1st of July 2013 I went to Chigwere for the meeting. The meeting was so successfull and the people from Chigwere are very thankful for the funding that you give to them. And they are also very committed for the work. I am saying so just because when I was there and saw a lot of people for the meeting about 100 and they have already dug the foundation gathered the Dambosand they have also put the bricks at the site.

So they have asked me that if it is possible to ask you that they need some materials for starting the project. They agree with what you said in the letter, but the school tterm begins on 9th or 16th Sept 2013. What they want is that they should build the foundation so that when Bernhard comes he should just buy the rest of materials for superstructure. After finishing the foundation they will be waiting for him to buy more materials for the building.

At first you told us that when Bernhard is away Mara and the C.D.C. plus Manuel can just purchase materials to Chigwere. But now we wonder how you are changing the things. Do you think that we can't manage the work? We can only managing the supervision? If you don't trust the C.D.C. and Mara plus Manuel who else as of now you can trust in Malawi when Bernhard is away for Grace. Do you think that we can't do the work without Bernhard? Mara and Manuel know how to drive the car though Manuel is not allowed to drive but he can just sit in the car and direct her what to do.

You have the quotation for Chigwere project the C.D.C. has agreed with their ideas that they can start building the foundation and wait for Bernhard for superstructure. I have attached the request for the material to start the project only foundation.

Mthuti Daniel

C.D.C chairperson

For Chipunga primary school and Chipunga bulking Group i am still get the minutes and will send it next friday on 12/07/2013

Requesting some materials for mzgola project:

- 20 bags of cement
- 5 rolls of brick force wire
- anti poison
