Tertiary Education, For two high-priced Private universities.

Blessing phiri and Laurent Ngwira.

C.D.C is complaining with how the things are going. The news that is in our Community says that your our Donor's has accepted the high priced two boys but the C.D.C is making the delay.

In our C.D.C discussion we agreed that as you said in your letter about the budget limitation - First we want to know how much money goes to college Scholarship per year? How many children (student) can you afford to sponsor per year?

The time when you were communicating with two boys shows that you have accepted to sponsor them in their face book messages. Thus why now it give us a very big problems with the parents of the boys and other people from the community. It shows that C.D.C has no power to handle the things.

In our letter of 7th January we wrote some points in the tertiary Education but it's not answered. please give us the feedback on that.

- The way how you have written in the letter of 6th February again it also shows that you are willing to sponsor the boys, but just because, it's too expensive. What happens if you can just tell them that they should re-apply for other colleges which is not expensive to compared with private universities.

Please, give us the answer's before Friday through ~~the~~ Joana and Jonathan facebook because the boys are writing to start school on Monday next week.

We are able to answer the letter on Friday this week.

Mthuti

C-DIC Chairperson.

I got the phone, Thanks for it.

Probably next week ~~we~~ I will start communicating with you. After Joana and Jonathan transame.
