→ Agenda Point 1: Preschool at the Compound (problems with teaching and teachers)

- parents are not often sending their children (because of the fees)
- teachers aren't often there, too (except Lea)

↳ problems started to get worse after Jubias Thindwa left (he normally picked the children)

↳ parents are fearful to send their children to school when there is no teacher, because Melina is always too late

conclusion: teacher (Melina) is the problem - what to do?

suggestions: - Lea should be the time giver (won't work)

\* - invite parents to talk to them about the issues (chosen suggestion!)

- invite Melina to talk to her about the issue (after talking to parents, talking to Melina)

→ tomorrow, 21.01.16 | 12 o'clock, at the compound talking to the parents of the preschool children

→ Agenda Point 2: Primary school issues

(1) Feeding program: program is not working as it should - what to do? (3rd year)

↳ CDC wants to make a meeting with school committee again; on Wednesday at 12 o'clock

(2) Headmasters house: not in good condition since 2010, should be renewed

- some materials can be found here, the rest should be paid by GRACE

- letter for GRACE from the school committee wasn't proper enough

↳ it will all be discussed on Wednesday (also the payment of the two new teachers at the Primary School)

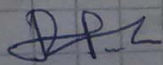

→ Agenda Point 3: Deduction of seed maize

- CDC want to start paying the backflow to ~~you~~ use it for other things
- backflow is 3500 MKW each
- discussion about when and how much <sup>money</sup> should be given back (short talk about the financial report which has been made a week ago)
