July 18, 2008

Dear CDC members,

Well we have heard not anything for a long time from your part. Did you get my letter I dispatched by end of January? Would you please mind to answer the questions I did ask at that time? How is the set to work of the brand new elected CDC going? Have you decided about the finances of the year 2008 so far, and what is the course of action concerning to the anticipated micro projects by the women groups, etc.?

Please reply to this message till end of August. All members of GRACE in Germany are very interested to hear about projects the CDC currently is working on and they desire at least to accompany your work with their minds. For that purpose they need to know on your engagements, your commitments, and your ideas by a simple exchange of communication.

We are very much looking forward to get your comment about the development at Chipunga.

With kind regards,

Dr. Jens Diedrich
President
