Dear CDC chair,
Dear CDC members,

Without a doubt the construction of the teacher houses is on the way. Well done and congratulation to the CDC and every person being involved! However, a next very important step must be arranged at this time.

By next step I suppose that you have to get in touch with the District Educational Manager (DEM). The DEM must support and forward your application to get high-quality teachers in good time. Thus Chipunga First Primary School should write a letter to the DEM and apply for teachers from EMANUEL college. Your communication should mention the entire project – e.g. support by GRACE, DED (Deutscher Entwicklungsdienst), and the German Embassy in Lilongwe. Please apply as soon as possible and work close with the headmaster, the teacher parent organisation and local chiefs. Please note: The teachers will be paid by government.

On top I am in contact with Joachim Kretzschmar who is manager of the EMANUEL teacher college in Lilongwe. He is willing to ask his recent class in November about the job offers at Chipunga. For the reason that we offer new teacher houses he believes Chipunga First Primary School will be outstanding attractive to the students.

Important: We don't pay bribe money to any of the involved civil persons. As the decisions about teacher allocation for entire Malawi will be done in early November it is very important to make the application as soon as possible. Till then the DEM must have forwarded your unrestricted and entitled claim.

We are very much looking forward to get your comment about the development at Chipunga. Good luck!

With kind regards,

Dr. Jens Diedrich
President GRACE charity
