Fertilizer.

I write to request you and the entire committee if you would assist us to include us in your budget when you will budget for the next the fertilizer this year.

We are six teachers and due to the problems we face during cultivation and application of fertilizer to find it during the time we need it. It also bring absenteeism of teachers when they are looking for food, hence, classes are being disturbed. We would pay 100% by instalment every month through the deduction from the headteacher to pay for Grace.

I hope you would consider us.
