I would like to thank you for the assistance you are doing as a group to support the school in teaching as well as building infrastructures as a group there.

We have received Dagmar has our teacher here with all our open hands to help us in our everyday life teaching. She was dedicate to duties a teacher with full information or matter in teaching and a welcoming teacher to everyone. She assisted us alot with learners with disabilities. Yes we still need her next time to finish her duties as we were here together.

We still have the problems in these learners

although she has left us, I hope to
more information on this need School Based
Inset where all teachers are engaged in
training. I hope Dagmar is the best. I will
be glad if you would discuss more to send
us some teachers who are in long term
holidays to assist us. Happy New Year to
everybody in Grace Charity.
